

**Expanding cooperation.  
with production organizations of the CHINA.**

The Russian Academy of Engineering (RAE), formerly known as the Engineering Academy of the Soviet Union, was officially established on 13 May 1990. In 1993, it received consultative status with the United Nations Industrial Development Organization. In 1997, it was included by UNESCO in the list of new technical expert organizations in Central and Eastern Europe. There are currently more than 1,000 members of the academy, including more than 200 foreign members from more than 30 countries. Many Chinese scholars are foreign members of the academy, including former presidents of the Chinese Academy of Engineering Song Jian and Xu Kuangdi, as well as incumbent Li Xiaohong. Currently, the Russian Academy of Engineering has not only foreign members in the academy, but also collective members, which unites scientific and industrial interests and this ensures wide cooperation between Russia and China.

In April 2022, RAE adopted by foreign teams members of more than ten companies from China. On July 12, the RAE Presidium sent congratulatory letters to Chinese colleagues, congratulating them on their membership in the Russian Engineering Academy and the leaders of foreign members of the Russian Engineering Academy: Li Hunnan, Chen Wantao, Chen Guangxue, Cui Zhaojie, Li Yongdong, Liu Hezhou, Liu Xuesong, Ning Ping, Wang Qi, Ye Wencai, Zhang Jiangsheng, Zhang Quanguo, Zhang Yi, Zhou Jianbin, Zhou Wei, et al. Selected collective members of the Russian Academy of Engineering include Shenyang Jianda Engineering Testing and Consulting Co., Ltd., Shanghai Keyuan Electronic Technology Co., Ltd., Shandong Guohe Circular Economy Research Center, Qingzheng Yuanhua. (Beijing) Technology Co., Ltd., Shenzhen Research Institute of Shanghai Jiaotong University, Zeda Essence. (Тяньцзинь) Technology Co., Ltd., Pingxiang Huaxing Environmental Engineering Technology Co., Ltd., Zhongnong Lv kang. (Beijing) Biotechnology Co., Ltd., Nanjing Haijing Pharmaceutical Co., Ltd., Tsinghua University Shanxi Clean Energy Research Institute, Henan Agricultural Engineering Society, Chengdu Aijia Shite Technology Co., Ltd., Ji 'an Longjing Carbon Technology Co., Ltd., Transport Science Research Institute, Ministry of Transport, et al.

The broad process of our cooperation continues.
