

**The System of Participation of
Foreign Organizations Uniting Scientists and Engineers
in the Activities of the All-Russian Public Organization
"Russian Academy of Engineering"**

1. Foreign organizations aiming at promoting the development of science and technology or their individual industries, uniting citizens engaged in engineering and/or scientific activities and actively participating in the activities of the Russian Academy of Engineering together with the structures (Sections, Regional Departments and Scientific Centers) of the Academy, can be elected **Foreign Collective Members of the Academy.**

The Head of the Organization - a Foreign Collective Member of the Academy must have a Doctorate degree in a specific field of practical activity, for which he can be certified by the Russian Academy of Engineering and the International Academic Accreditation and Certification Committee (IAACC), registered at the Ministry of Foreign Affairs of the Russian Federation.

2. **Foreign Collective Members of the Academy** are eligible to:
 - delegate their representatives (one from the organization) to participate in the Conferences of the Academy;
 - nominate candidates to be elected Foreign Leading Engineers of the Russian Academy of Engineering, Foreign Academic Advisers of the Russian Academy of Engineering, Foreign Members (Foreign Corresponding Members) of the Russian Academy of Engineering and Foreign Full Members (Foreign Academicians) of the Russian Academy of Engineering;
 - use the results of scientific and engineering developments of the Academy, involve specialists of the Academy to analyze their scientific and technical developments and conduct examinations;
 - receive scientific and technical information;

- carry out joint training and retraining of their specialists in mastering new technologies, engineering achievements, etc.;
 - participate in scientific programs of the Academy.
3. RAE Foreign Collective Members are approved by the Presidium of the Academy.
 4. To elect Foreign Collective Member, RAE announces a competition. Following the announcement, there begins an active work on the main activity areas of foreign organizations, creation of working groups in these areas, preparation of cooperation programs in these areas together with the Members of the Presidium, Academicians-Secretaries of the sections, Heads of Regional Departments and Scientific Centers. To ensure this work, there are transferred contributions in the amount established by the Presidium of the Academy.
 5. The Academy Diplomas in Russian and English indicate:
 - **Diploma of a Foreign Collective Member of the Russian Academy of Engineering;**
 - **Diploma of the Head of the Organization - a Foreign Collective Member of the Russian Academy of Engineering.**
